

ABSTRACT

Syafri, Sarah. 2018. “Comparative Analysis of Language Style Between Daliso Chaponda and Elon Gold Found in Their Stand-Up Comedy Performance”. Thesis. Fakultas Bahasa dan Seni. Universitas Negari Padang

Abstract

This study aims to compare language style from stand-up comedian through three level of metafunction. The objects of this research are eight videos, four from each of them. This study is comparative qualitative with the presence of tables to show the comparison. The result show that they share three similarities and two differences in level Ideational metafunction. In Interpersonal metafunction there are five similarities and four differences. Then, there are four similarities between Daliso and Elon and there are two differences in textual metafunction. The conclusion of this study there are more similarities rather than differences, and the differences in style are affected by different cultural ethnic background which are represented through speech and lead to the different ways of producing and selection of word in the three level of metafunction.

Key words: Language style, Stand-up comedy, Three level of metafunction, Daliso Chaponda, Elon Gold
