

ABSTRACT

Yuhanda Gustian : The Effect of Parents' Attention, Physical Fitness and Students' Motivation in Learning Process toward Students' Achievement of Sport Study at SMK Negeri 1 Kota Solok.

The problem of this research was a decreased achievement of student at SMK N 1 Kota Solok. This achievement was influenced by many exogenous factors such as parents' attention, physical fitness and student's motivation in learning process. This research had an aim to disclose an influence of exogenous variable to endogenous variable directly, casually, simultaneously.

In this research, we used quantitative method which was used Path Analysis approach. And our populations were all of student grade 9th at .as many as 76 students from 6 classes. We took the sampling with used purposive random sampling technique, with total sampling as many as 38 students. Also we collected the data with used questionnaires to measure parent's attention and students' motivation in learning process, TKJI test to get the data of physical fitness from students in sixth semester 2018/2019.

The result of this research and data analysis showed us: (1) Parents' attention influenced the students directly and significantly toward students' sport . (2) Physical fitness influenced the students directly and significantly toward students' sport achievement. (3) Students' motivation in learning process influenced the students directly and significantly toward students' sport achievement. (4) Parents' attention influenced the students indirectly toward students' sport achievement. (5) Physical fitness influenced the students indirectly toward students' sport achievement through students' motivation in learning process. (6) Parents' attention, Physical fitness, and Student's motivation in learning process influenced the students simultaneously toward students' sport achievement.

ABSTRAK

Yuhanda Gustian : Pengaruh Perhatian Orang Tua, Kebugaran Jasmani dan Motivasi Belajar terhadap Hasil Belajar Pendidikan Jasmani Olahraga Kesehatan (PJOK) Peserta Didik Kelas X AK 1 di SMK Negeri 1 Kota Solok

Permasalahan dalam penelitian ini adalah menurunnya prestasi belajar siswa di SMK N 1 Kota Solok. Prestasi ini di pengaruhi oleh banyak faktor eksogen seperti perhatian orang tua, kebugaran fisik dan motivasi siswa dalam proses pembelajaran. Penelitian ini bertujuan untuk mengungkapkan pengaruh variable eksogen terhadap variabel endogen secara langsung dan simultan.

Dalam penelitian ini menggunakan metode kuantitatif yang menggunakan pendekatan Path Analisis. Dan populasi semua siswa kelas X di SMK N 1 Kota Solok 76 orang yang terdiri dari 6 kelas. Teknik pengambilan sampel digunakan dengan cara purposive random sampling, dengan total sampel sebanyak 38 siswa. Data dikumpulkan dengan menggunakan kuesioner untuk mengukur perhatian orang tua dan motivasi siswa dalam proses pembelajaran, tes TKJI untuk mendapatkan data kebugaran fisik dari siswa di semester genap tahun ajaran 2018/2019.

Hasil penelitian dan analisis data ini menunjukkan bahwa: (1). Perhatian orang tua memengaruhi siswa secara langsung dan signifikan terhadap hasil belajar. (2). Kebugaran jasmani memengaruhi siswa secara langsung dan signifikan terhadap hasil belajar. (3). Motivasi belajar berpengaruh secara langsung dan signifikan terhadap hasil belajar. (4). Perhatian orang tua berpengaruh secara tidak langsung terhadap hasil belajar PJOK melalui motivasi belajar. (5) Kebugaran jasmani berpengaruh secara tidak langsung terhadap hasil belajar PJOK melalui motivasi belajar. (6) Perhatian orang tua, kebugaran jasmani dan motivasi belajar berpengaruh secara simultan terhadap hasil belajar PJOK.

Kata Kunci :Perhatian Orang Tua, Kebugaran Jasmani, Motivasi Belajar dan Hasil Belajar
