

ABSTRACT

Yulia Purnamasari 2021 "Development of Learning Video Model for Early Childhood Local Content Centers based on Minangkabau Natural Culture. Teacher Training and Education Faculty, Padang State University.

Video Model learning local content centers. This study aims to development a video learning model for early childhood local content centers based on Minangkabau natural culture that can be used as a learning guide for local content centers based on Minangkabau natural culture. Based on the observations made, there are still only a few Play Groups that use the local content center learning model in the Padang Panjang City Play Group. The learning model of local content centers based on various Minangkabau natural cultures is designed to support children's development according to children's interests and characteristics. This development research method uses Research and Development (R&D) stages that adapt the ADDIE model. The instruments used are in the form of assessment sheets or instructional video assessment questionnaires for material experts, media experts, cultural experts. The results of this study use the ADDIE steps. In this development research produces a product in the form of a video as teaching material or a guide for designing teaching materials. The results of the research were validated by material experts and media experts, who got results with a percentage of 91% and media experts with a percentage of 92% and local content experts with 92%. Getting a very valid category to be tested with revisions according to suggestions. The results of the research conducted from the overall perception, which consisted of teachers in the play group, obtained 93.5% results, with the very valid category. Based on the research results, it can be concluded that development research produces a product in the form of a video as teaching material for early childhood teachers and students, so that in the future it can make learning video models for early childhood local content centers based on Minangkabau natural culture more creative and innovative.

ABSTRAK

Yulia Purnamasari 2021 “Pengembangan Model Video Pembelajaran Sentra Muatan lokal Anak Usia Dini Berbasis Budaya Alam Minangkabau . Fakultas Keguruan dan Ilmu Pendidikan Universitas Negeri Padang

Model Video Pembelajaran Sentra Muatan lokal. Penelitian ini bertujuan untuk mengembangkan video model pembelajaran sentra anak usia dini yang dapat digunakan sebagai panduan pembelajaran sentra muatan lokal yang berbasis budaya alam Minangkabau. Berdasarkan observasi yang dilakukan, masih sedikit Kelompok Bermain yang menggunakan model pembelajaran sentra muatan lokal berbasis budaya alam Minangkabau di Kelompok Bermain Kota Padang Panjang. Model pembelajaran Sentra muatan lokal yang berbasis ragam budaya alam Minangkabau dirancang untuk mendukung perkembangan anak sesuai dengan minat dan karakteristik anak. Metode penelitian pengembangan ini menggunakan tahapan-tahapan Research and Development (R&D) yang mengadaptasi model ADDIE. Instrumen yang digunakan berupa lembar penilaian atau angket penilaian video pembelajaran untuk ahli materi, ahli media , ahli budaya. Dalam penelitian pengembangan ini menghasilkan suatu produk berupa video sebagai bahan ajar atau panduan untuk merancang bahan ajar. Hasil penelitian yang dilakukan divalidasi oleh ahli materi yang mendapatkan hasil dengan persentase 91% dan ahli media dengan persentase 92% dan ahli muatan lokal 92%. Mendapatkan kategori sangat valid untuk diujicobakan dengan revisi sesuai saran. Hasil penelitian yang dilakukan dari persepsi secara keseluruhan, yang terdiri dari Guru di Kelompok Bermain memperoleh hasil 93,5%, dengan kategori sangat valid. Berdasarkan hasil penelitian dapat disimpulkan bahwa penelitian pengembangan menghasilkan suatu produk berupa video sebagai bahan ajar guru maupun mahasiswa PAUD, agar kedepannya dapat membuat model video pembelajaran sentra muatan lokal anak usia dini berbasis budaya alam Minangkabau lebih kreatif dan inovatif.
