## **CHAPTER I**

### **INTRODUCTION**

#### **A. Background of the Problem**

Writing as one of the language skills in English is an important requirement for learning personal experience and professional success. Through writing people can show their knowledge acquisition in many areas, such as to get society, science, cultures, economics and politics. By having an ability in writing people can demonstrate their ideas, thoughts and feelings in order to communicate with others. In classroom, writing allows the students to be able to think critically and logically. Because writing requires them to have sentences written correctly in order to be easy to understand by the reader.

In genre based approach, teachers help the students to develop their writing skill by introducing them the genre which they are explicitly taught about the social functions, the generic structures and the lexicogrammatical features of the texts. By introducing the students the model of reading texts, the students are expected to know and comprehend the differences between the types of text in English.

In school Based curriculum or Kurikulum Tingkat Satuan Pendidikan (KTSP 2006) in senior high school students, there are twelve genres that are taught to the students, they are descriptive, narrative, explanation, hortatory exposition, analytical exposition, news item, procedure, discussion, review, recount/ spoof, anecdote and report. All these genres have different social function, generic structures and lexicogrammatical features. For the second

year students, one of the texts that the students learn is spoof text which its function is to enable people to retell a series of events or experiences in the past for the purpose of informing or entertaining. The students are expected to master four skills in learning this text, such as listening, speaking, reading and writing. Between of them, writing is the most difficult skill for students in writing spoof text.

Writing is the most difficult skill for the students to be mastered. Most of the students cannot enjoy writing, especially in spoof text. There are many reasons why students cannot enjoy writing the spoof text. First, they get difficulties to get ideas write spoof text. Second, they have poor vocabulary. Third, they get difficulties to find twist in spoof text. Fourth, they get difficulties with sentence structure and word order. Moreover, the boring techniques of the teacher will not make the students enthusiastic to receive the subject-therefore, it is difficult for them to get and develop their ideas well, especially in writing spoof text.

There were some problems that have been found. It is from the students' side and teacher's side. From the students' side, first, they are not be able to organize their idea in spoof text, so that they do not know how to start writing. If the students have the problem at the beginning, they will not be able to finish it well. Second, the students also do not understand the generic structure and language feature of spoof text. Third, the students get distracted easily during writing task. Fourth, the students have other problem such as poor vocabulary and difficulties in sentence structure, word order and error

grammar in written sentence spoof text. And the last one, students have problems in how to write spoof well.

Beside the student's problem in writing spoof text, the problems also come to from the teacher. The teacher does not use attractive and appropriate technique to teach them in teaching writing spoof text. Most of the teacher only teaches the students by using English textbook : sometimes the students feel bored . The teacher does not give clear explanation of spoof text and example of the spoof text. The teacher did not used effective ways to attract the students' attention and interest. Because of that, the students are not really interested in teaching and learning process.

In order to solve the problems above and to get successful in teaching. It is very important by the English teachers to find a suitable way in teaching writing spoof text. The teacher is expected to be more active in facilitating their students with interesting materials and give variation technique in teaching process such as small group discussion, pairs, triads and whole group discussion. In this paper, the writer use the whole group discussion as one of technique in teaching writing a spoof text for senior high school students in order to help the students to organize their idea into a written form especially in spoof text. It has to be innovative and creative to make the students interest and be able to write the spoof text. This technique will be applied in whilst activity of the text.

The Whole Group Discussion of a funny story is an activity that allows the students to solve a problem in finding ideas and write spoof text well. The

whole group discussion also help the students in developing idea in writing especially spoof text. The teacher gives some questions and the students ask to answer the questions through discussion in each group. The students' answer will help them to find twist and to produce a good spoof text. By using the whole group discussion, the writer hopes that this technique can make the students to understand and be active in developing their ideas become a spoof text.
